February 20, 2015

Milford Fire Department, Residence of Milford,

Milford Water Company wishes to thank all of the firefighters and residents of Milford for your help removing the snow from the hydrants in and around town. This has been a very difficult year in terms of snow fall and unfortunately we still have a month or so to go. The Company greatly appreciates the time and efforts put in by our local firefighters and residents clearing around hydrants throughout town and in front of their homes providing us with much needed support during this very harsh winter.

I wish to personally thank all you on behalf of my Board of Directors and my staff for your continued support and efforts. It is through the efforts of us all that make this such a great community to live in.

Sincerely,

*David L. Condrey*

David L. Condrey
