

2013 Flushing Schedule

NOTE: These are the general streets locations where we will be flushing. The schedule may change dependent on the progress made each night. The Company does not flush every hydrant in the system but utilizes those hydrants that can flow the most amount of water providing the best results needed to remove any sediment that has built up. We will update the list on a regular basis highlighting those streets that have been completed in green.

WEEK #1

Dilla Street (starting at the Treatment Plant to Cedar Street)

Fortune Blvd (Cedar to Sleepy's)

Cedar Street (Hamilton to Walden Woods)
